

The Home & School Association is pleased to offer SMG families an economical and convenient way to purchase school supplies. This popular request from families is offered as a service – not a fundraiser. We encourage you to take advantage of this convenient service, which provides:

- **Name Brand, High Quality, Teacher Approved School Supplies**
- **Supplies Are Delivered Directly To The Classroom Before The First Day Of School**

We are pleased to share that for this coming school year SMG was able to purchase many of the required school supplies in bulk thus significantly decreasing the price of the supply kits for most grades.

This is the sixth year in a row that we have offered this service and it has been well received. Over the years, there has been some feedback from parents and teachers about some of the products which has caused us to revise many of the products ordered and how they are delivered. This has caused the usual mix of some increases and some decreases in total price for various grades, but overall there is savings by purchasing these kits.

We hope this method of ordering will help families continue to save money while still allowing the convenience of not having to run around town searching for all of the required items.

If you have any questions about the new process or form, feel free to contact the School Supply Chair, Jessica McGuinness at 972-322-4747 or Home & School Treasurer, Chandler Clark at 214-929-7832.

Sincerely,

SMG Home & School Association Executive Committee
